# Experiment no 11

Code:

```java
import java.io.*;
public class Main {
    public static void main(String[] args) {
        try {
            BufferedReader br = new BufferedReader(new
FileReader("in.txt"));
            BufferedWriter bw = new BufferedWriter(new
FileWriter("out.txt"));

            String line;
            while ((line = br.readLine()) != null) {
                bw.write(line);
                bw.newLine();
            }

            br.close();
            bw.close();

            System.out.println("File copied
successfully!");
        } catch (IOException e) {
            System.out.println("Error: " +
e.getMessage());
        }
    }
}
```

Output:

Problems  @ Javadoc  Declaration  Console X
<terminated> Main [Java Application] C:\Users\Student\.p2\pool\plug
File copied successfully!
